

Colleagues:

Please consider joining, or renewing your membership in, the History of Earth Sciences Society (HESS). To learn more about HESS please visit our website at <http://historyearthscience.org>. Membership includes two issues per year of the journal *Earth Sciences History*. It is an ISI/Web of Science listed international journal and is the only one in the world devoted exclusively to history of the earth sciences. HESS is affiliated with the International Commission on the History of the Geological Sciences (INHIGEO). Online subscriptions provide access to the full run of the journal dating back to Volume 1 in 1982. By joining now (see below), you can receive both issues for 2019.

Thank you for considering this invitation!

John Diemer, Editor
Earth Sciences History

HOW TO JOIN

Joining HESS by submitting payment online is the preferred method, for both print and/or online access, for US and non-US members, and for both individuals and institutions. It is a two-step process: first, visit our Allen Press site (our online and payment processing host) at <https://earthscienceshistory.org>; second, simply click the 'Register Now!' link in the lower left corner. You will have to enter your name, email address, and a password. A mailing address is required for print subscriptions. Select the type of *ESH* subscription you want (see 'Dues rates' below). Instructions for joining online are also on the HESS website membership page: <http://historyearthscience.org/membership.html>

Alternatively, you can contact the Treasurer (davidspanagel@comcast.net) for instructions if you find it more convenient to pay by Paypal, or by mailing a check or International Money Order in US dollars.

If you encounter any problems or have questions please contact:
membership@historyearthscience.org

Dues rates for 2019 (Vol. 38)

Rates (all in US\$) are the same for US and non-US addresses.

Memberships are for the calendar year.

Individuals

\$55 – print subscription
\$50 – online subscription*
\$70 – print + online subscription*
\$25 – students (online only)**

Institutions

\$85 – print subscription
\$80 – online subscription*
\$105 – print + online subscription*

* Online access includes full back issue access (back to Volume 1) *for the duration of your subscription (i.e., for new 2019 online subscribers, you will have full archival access; if your subscription lapses in 2020, you will only maintain access to Volume 38 (2019)).* You must provide an email address for online access.

** Students must provide verification of student status. Students wanting *ESH* in print rather than online must pay the full membership rate (\$55)

EARTH SCIENCES HISTORY

Volume 37, No. 2, 2018

CONTENTS

Letters from the President, Treasurer, Secretary and Editor's Introduction Ernie Hamm, David Spanagel, Paul Brinkman and John Diemer	ii–iv
<hr/>	
Special Issue from the “Society of Arts and the Encouragement of Mineralogy and Geology (1754–1900) Meeting” sponsored by the RSA and the History of Geology Group, and held at the Geological Society London, 9 November 2017	
Poking its nose into everything: The Society for the Encouragement of Arts, Manufacture and Commerce Susan Bennett	229–246
John Player's ‘Geological Observations’ of 1764–1766, and his contributions to the Society of Arts journal <i>Museum Rusticum et Commerciale</i> Hugh Torrens	247–265
The Society of Arts map awards and the encouragement of geologic mapping C. John Henry	266–292
Geologists John Farey and William Smith awarded Silver Medals for agriculture Cherry Lewis	293–308
Negative geology: Humphry Davy and forming the Royal Institution's mineral collection, 1803–1806 Frank A. J. L. James	309–332
Illustrating the ideal: Crystal models and illustrations in the early nineteenth century Jane Insley	333–341
National water supply, debates between geologists and engineers and the role of the Society of Arts John D. Mather	342–362
Promoting Art, Manufactures and Commerce in one: The Society's role in the development of a British marble industry Gordon Walkden	363–379
<hr/>	
Volunteered Papers	
Edward Hitchcock, Roderick Murchison, and rejection of the Alpine glacial theory (1840–1845) Jordan D. Marché II	380–402
The Prussian geoscientist, engineer and painter August von Heyden (1827–1897): An artistic chronicler of the world of mining during the mid-19th century. Barbara A. R. Mohr	403–415
Robert Bedford (1874–1951), the Kyancutta Museum, and a unique contribution to international geology Barry J. Cooper and James B. Jago	416–443
Elogés	
Ursula Marvin (1921–2018) by Kenneth Taylor	444–449
Leonard Wilson (1928–2018) by Sandra Herbert	450–451
Book Reviews edited by Paul Lucier	
Alistair Sponsel. <i>Darwin's Evolving Identity: Adventure, Ambition and the Sin of Speculation</i> (2018). Reviewed by Sandra Herbert .	452–453
